Subject: Seneca Nation UIC Consultation Opportunity – Catalyst and Bull Run

President Pagels,

EPA Region 3 is providing upcoming consultation opportunities for the proposed two Underground Injection Control ("UIC") permits for Catalyst and Bull Run. On December 8, 2020, Catalyst Energy, Inc. ("Catalyst") submitted a UIC permit application for the conversion of one active production well to a class II-D disposal injection well located near the community of Cyclone, in Keating Township, McKean County, Pennsylvania. On October 8, 2020, Bull Run Resources, LLC ("Bull Run") submitted a UIC permit application for the conversion of two active production wells to two operating Class II-R enhanced recovery injection wells. Please see the attached consultation opportunity letters.

The EPA contact person for the consultation and coordination process for this UIC action will be Mr. Kevin Rowsey, Senior Permitting Specialist for the UIC program. Please contact Mr. Rowsey at rowsey.kevin@epa.gov or 215-814-5463 for additional information on the Catalyst and Bull Run Permits or the UIC program in general.

We look forward to hearing from you, and working together with you, on this important matter.

Sincerely,

Diana Esher
Acting Regional Administrator
US EPA Region 3
